

Trading Competition 2026

Terms and Conditions

1. Overview

1.1 The “Live Trading Competition 2026” (the “Competition”) is organised by MH Markets (the “Platform”).

1.2 The Competition is intended to provide eligible users with a fair and transparent live trading competition environment. Eligibility, rankings, and the distribution of prizes shall be governed by these Terms and Conditions, the specific rules published on the Competition page, and the relevant policies of the Platform.

1.3 By clicking “Join Competition” or otherwise registering to participate in the Competition, the user confirms that they have read, understood, and agreed to comply with these Terms and Conditions.

1.4 To the extent permitted by applicable laws and regulations, the Platform reserves the right to modify, suspend, postpone, or terminate the Competition due to regulatory requirements, market conditions, system operations, risk management considerations, or any other reasonable grounds. Any such changes will be announced on the Competition page or through other appropriate channels.

2. Competition Period

2.1 The Competition will be conducted weekly based on the Platform’s server time, GMT+3:

- Registration and funding period: Monday to Sunday;
- Competition trading period: From market opening on Monday until market close on Friday;
- Each week constitutes a separate Competition Period.

The specific registration, funding, and Competition times shall be subject to the information displayed on the Competition page.

2.2 To qualify for the relevant weekly Competition, users must click “Join Competition” on the Competition page and deposit the required Initial Capital.

2.3 If a user completes registration and funding after the Competition has commenced, the user may participate in the remaining trading period for that week, provided this is permitted on the Competition page. No extension of the Competition Period will be granted.

2.4 If a user completes registration or funding after the weekly market close, the user's eligibility and the corresponding funds will, in principle, be automatically carried forward to the next Competition Period, unless otherwise specified on the Competition page.

2.5 Results for each Competition Period will be calculated independently. Trading records, rankings, and returns from a previous Competition Period will not automatically be carried forward to the next Competition Period.

3. Eligibility

3.1 Participation in the Competition is assessed on a per-user basis. Each Participant must:

- Have reached the legal age of majority under the laws applicable in their place of residence;
- Reside in a country or region in which participation in the Competition is permitted by the Platform;
- Complete the identity verification process (KYC) and any other required checks;
- Complete the Competition registration process; and
- Deposit the required Initial Capital in accordance with the requirements stated on the Competition page.

3.2 Users from restricted countries, regions, or jurisdictions, or those who otherwise do not meet the Platform's conditions of service, are not eligible to participate in the Competition.

3.3 Users who have not completed registration, identity verification, the required funding, or any other Competition requirements will not be regarded as valid Participants.

3.4 Unless otherwise specified on the Competition page, each user may participate using only one user identity and one designated Competition Account during the same Competition Period. Participation through multiple accounts, multiple identities, or the identity of another person is strictly prohibited.

3.5 The Platform may determine whether multiple accounts are controlled by the same ultimate beneficial owner or actual controller by reference to identity information, IP addresses, device information, contact details, payment methods, trading behaviour, login records, and other reasonable indicators of association.

3.6 Where the Platform reasonably determines that multiple accounts are controlled by the same person, or that duplicate participation, false identities, identity misuse, or circumvention

of Competition restrictions has occurred, the Platform may treat the relevant accounts as belonging to a single Participant and may disqualify the Participant, remove their ranking, cancel any prize, restrict the relevant accounts, or take any other necessary action.

4. Competition Account

4.1 Each eligible Participant will be assigned a separate Competition Account generated or designated by the Platform. The trading platform, account type, base currency, Initial Capital, and leverage applicable to the Competition Account shall be as specified on the relevant Competition page.

4.2 The Competition Account may only be used by the verified account holder. It may not be transferred, lent, sold, or operated by any third party.

4.3 Once the Competition has commenced, no additional deposits, withdrawals, internal transfers into the account, or internal transfers out of the account may be made, except in connection with a Reset permitted under these Terms and Conditions.

4.4 If any unauthorised fund movement occurs during the Competition, the Platform may take one or more of the following actions, depending on the circumstances:

- Disqualify the account from the relevant Competition Period;
- Remove the account from the Leaderboard;
- Cancel all or part of the account's Competition results;
- Recalculate the Competition results based on the actual fund movement; or
- Cancel the Participant's eligibility to receive a prize.

4.5 Funds held in a Competition Account constitute the user's live trading funds, and trading may result in profits or losses. Participation in the Competition does not constitute any guarantee by the Platform regarding the Participant's principal, returns, or ranking.

5. Trading and Valid Leaderboard Eligibility Rules

5.1 To be counted towards the Competition Leaderboard, a trade must satisfy all of the following minimum requirements:

- The trading volume must be at least 0.1 standard lot;
- The position must remain open for at least 180 seconds;
- The instrument traded must be an eligible trading instrument specified on the Competition page;
- The trade must be completed within the prescribed trading period for the relevant Competition Period; and

- The trade must not involve any abnormal, prohibited, or abusive activity described in these Terms and Conditions.

5.2 Orders that do not meet the minimum trading volume, minimum holding period, or other valid-trade requirements will not be included in the Valid Trading Volume. The Platform may also exclude such trades and any results arising from them when reviewing returns, rankings, or prize eligibility.

5.3 Even where a trade meets the minimum holding period and trading volume requirements, the Platform may determine, based on the trading pattern, market conditions, order execution, and account relationships, whether the trade constitutes Competition abuse or unfair trading.

5.4 The use of Expert Advisors (EAs) is permitted in the Competition. However, the use of an EA does not exempt a Participant from complying with these Terms and Conditions. Any abnormal trading, arbitrage, wash trading, abusive copying, or other unfair activity conducted through an EA may result in disqualification.

5.5 Participants are responsible for ensuring that their trading terminals, internet connections, and devices function properly. The Platform will not be liable for failed or delayed orders, or any impact on rankings, resulting from a Participant's device, network interruption, trading terminal failure, or third-party service issue. Any irregularity caused by the Platform's systems will be reviewed based on the relevant circumstances.

6. Prize Eligibility and Open Positions

6.1 To be eligible for any Competition prize, a Participant must close all open positions in the Competition Account before the end of the relevant Competition Period.

6.2 If any position remains open at the end of the Competition Period, the Participant will be disqualified from receiving a prize for that Competition Period, even if the Participant's displayed ranking would otherwise qualify for a prize.

6.3 During the Competition, the Leaderboard may display rankings based on the account's real-time Equity, which may include unrealised profit or loss from open positions. Such real-time rankings are for reference only and do not constitute confirmation of the final ranking or prize eligibility.

6.4 Final rankings and returns will be determined based on the data recorded by the Platform's systems at the end of the Competition Period and subsequently verified by the Platform. As all prize-eligible accounts must have no open positions, the final valid results will, in principle, be based on realised trading results and the account's final Equity.

6.5 Participants are solely responsible for closing all positions before the end of the Competition Period. The Platform is under no obligation to close positions on behalf of a Participant and will not be liable for any change in ranking or loss of prize eligibility resulting from the Participant's failure to close positions in time.

6.6 If a ranked Participant is disqualified from receiving a prize due to open positions, prohibited trading, or any other reason, the Platform may reallocate the relevant prize to the next eligible Participant based on the verified final rankings.

7. Ranking Calculation Rules

7.1 The Competition may include one or more of the following Leaderboards, as specified on the Competition page:

(1) Equity Leaderboard

Participants will be ranked primarily according to the Equity of their Competition Account at the end of the Competition Period, as verified and confirmed by the Platform.

(2) Trading Volume Leaderboard

Participants will be ranked primarily according to the cumulative USD Notional Trading Volume of their valid completed trades during the relevant Competition Period.

The specific methodology used to calculate Notional Trading Volume, including contract sizes, currency conversion methods, and eligible trading instruments, shall be subject to the Platform's system calculations and the information provided on the Competition page.

7.2 Orders that do not meet the minimum trading volume, minimum holding period, or other valid-trade requirements will not be included in the Trading Volume Leaderboard. The Platform may deduct any invalid, abnormal, or prohibited trading volume from the ranking calculation.

7.3 All results will be calculated independently for each Competition Period. After the Competition Period ends or the Competition Account is reset, the relevant results will be recalculated in accordance with these Terms and Conditions.

7.4 If two or more Participants achieve the same result on the Equity Leaderboard, the Participant who first achieved the final valid result will rank higher.

7.5 If two or more Participants achieve the same Trading Volume, the Participant who first achieved that Valid Trading Volume will rank higher.

7.6 Leaderboard data may be subject to update delays, and any real-time ranking displayed on the Competition page does not constitute final confirmation of a prize. The Platform reserves

the right to review and confirm all trading data, valid results, final rankings, and prize allocations.

8. Reset Mechanism

8.1 Following a Reset of a Competition Account:

- The Participant must deposit funds again in accordance with the Competition requirements so that the Competition Account balance is restored to the required Initial Capital;
- The Participant will continue to use the original Competition Account unless otherwise arranged by the Platform;
- All trading records, profits, losses, Trading Volume, and Leaderboard results recorded before the Reset will be removed from the Participant's results for the relevant Competition Period;
- The Participant will be regarded as commencing a new round of participation within the same Competition Period; and
- Results following the Reset will be calculated only from the time the Reset is completed.

8.2 The permitted number of Resets for each Competition Period, the Reset deadline, and any other applicable requirements shall be subject to the rules published on the Competition page.

8.3 If a Reset request is submitted close to the end of a Competition Period, the Platform does not guarantee that the request will be processed before the Competition Period ends.

8.4 The Platform reserves the right to reject any Reset request that it reasonably determines involves Competition abuse, circumvention of risk controls, manipulation of rankings, or conduct inconsistent with the purpose of the Competition.

9. Risk Control and Fair Competition

9.1 To maintain the fairness of the Competition, any abnormal, prohibited, fraudulent, or abusive use of the Competition mechanism is prohibited, including but not limited to:

- Ultra-short-term order churning or repeatedly opening and closing positions without a genuine trading purpose;
- Latency arbitrage;
- Price-error arbitrage;
- Hedging arbitrage or hedging between associated accounts;
- Opposite-direction trading between associated accounts;
- Abuse of copy-trading or social-trading functions;

- Participation through multiple accounts, multiple identities, or the identity of another person;
- Circumvention of Competition restrictions through devices, IP addresses, payment methods, identity information, or trading behaviour;
- Exploitation of system vulnerabilities, pricing delays, technical failures, or other abnormal circumstances;
- Trading that does not involve genuine market risk;
- Abnormally high-frequency trading;
- Wash trading or trading primarily intended to obtain a Trading Volume ranking without reasonable market risk;
- Collusion, coordination, or manipulation of Competition results between Participants;
- Provision of false, incomplete, or misleading information;
- Any conduct that violates the Platform's Client Agreement, trading rules, or applicable laws and regulations; or
- Any other conduct that the Platform determines, based on reasonable evidence, to be inconsistent with the principles of fair competition or the purpose of the Competition.

9.2 If the Platform identifies or reasonably suspects any of the above conduct, it may take one or more of the following actions without prior notice:

- Suspend or cancel the Participant's eligibility;
- Remove or adjust the relevant trading results or Trading Volume;
- Remove the account from the Leaderboard;
- Withhold or cancel all or part of a prize;
- Require the Participant to provide additional information or explanations;
- Restrict certain functions of the Competition Account or user account; or
- Take further action in accordance with the Client Agreement.

9.3 The Platform may conduct a manual or system-based review of prize-winning accounts after the Competition ends. Until the review is completed, all Leaderboard results and prizes will remain subject to confirmation.

9.4 If a Participant fails to provide the requested information within the period specified by the Platform, or if the information provided does not reasonably demonstrate that the Participant's participation and trading activities comply with these Terms and Conditions, the Platform may cancel the Participant's Competition or prize eligibility.

10. Prize Pool and Prize Distribution

10.1 The Competition may offer fixed prizes, a dynamic prize pool, or a combination of both. The specific prize amounts, winning positions, and allocation methods shall be subject to the information published on the relevant Competition page.

10.2 A dynamic prize pool may be adjusted based on the number of valid Participants, Valid Trading Volume, overall trading activity, or other factors specified on the Competition page.

10.3 Any estimated prize amount displayed on the Leaderboard is for reference only. The final prize amount will be subject to the results verified and confirmed by the Platform after the Competition ends.

10.4 Prizes will be credited to the winners' Platform wallets within three (3) to seven (7) business days after the Competition ends and the Platform completes its eligibility and trading review.

10.5 If prize distribution is delayed due to additional reviews, identity verification, technical issues, public holidays, or other reasonable causes, the Platform will process the prizes according to the relevant circumstances.

10.6 Winners must ensure that their Platform accounts and wallets remain active, in good standing, and fully verified as required. If a winner's account is restricted, the required information is incomplete, or the winner does not meet the prize-distribution requirements, the Platform may withhold the prize until the relevant issue has been resolved.

10.7 Unless otherwise stated on the Competition page, prizes may not be transferred to another user or paid into a third-party account.

10.8 Winners are solely responsible for any taxes, reporting obligations, or other costs arising from the receipt or use of a prize.

11. General Terms

11.1 Unless expressly stated otherwise on the Competition page, the Competition may not be used in conjunction with any other promotion, trading bonus, or reward programme offered by the Platform.

11.2 While participating in the Competition, users must continue to comply with the Platform's Client Agreement, trading rules, Privacy Policy, Risk Disclosure Statement, and other applicable policies. In the event of any conflict between these Terms and Conditions and the above documents, these Competition-specific Terms and Conditions shall prevail to the extent permitted by applicable law.

11.3 To the extent permitted by applicable laws and regulations, the Platform reserves the right to make the final determination regarding eligibility, trade validity, rankings, prohibited conduct, and prize allocation.

11.4 The Platform does not guarantee that any Participant will generate a profit, obtain a ranking, or receive a prize. The Platform will not be liable for any trading losses incurred as a result of participation in the Competition, except where otherwise required by applicable law.

11.5 If the Competition cannot operate normally due to circumstances beyond the Platform's reasonable control, including but not limited to abnormal market conditions, natural disasters, war, government action, regulatory requirements, cyberattacks, system failures, communication interruptions, or liquidity provider disruptions, the Platform may suspend, postpone, adjust, or cancel the relevant Competition Period.

11.6 If there is any inconsistency or difference in interpretation between different language versions of these Terms and Conditions, the English version shall prevail.

11.7 For the purpose of publishing Competition results and promoting the Competition, the Platform may publicly display limited information about winners or Participants, including:

- Nickname;
- Profile picture;
- Ranking;
- Equity performance;
- Valid Trading Volume;
- Estimated prize amount; and
- Competition Account information that has been appropriately masked or anonymised.

By participating in the Competition, the user acknowledges and agrees that the above limited information may be publicly displayed. Unless otherwise required by applicable laws and regulations or authorised by the user, the Platform will not disclose the user's full name, identification documents, contact details, payment information, or other sensitive personal information.

11.8 The Competition does not constitute investment advice, trading advice, or any guarantee of returns.

12. Risk Warning

12.1 Trading leveraged products involves a high level of risk and may result in the loss of some or all of the Participant's invested capital. Such trading may not be suitable for all investors.

12.2 Market prices may fluctuate rapidly, and leverage may magnify both profits and losses. Before participating in the Competition, Participants should ensure that they fully understand the relevant product features, trading rules, and associated risks.

12.3 Participants should make independent trading decisions based on their own financial circumstances, trading experience, and risk tolerance, and should seek independent professional advice where necessary.

12.4 By participating in the Competition, each Participant confirms that they fully understand and voluntarily accept the risks associated with live trading and participation in the Competition.
