

Trading Competition_IB Referral Program 2026

Terms and Conditions

1. Program Overview

This program is an IB referral incentive program launched in connection with the MH Markets Live Trading Competition 2026.

Eligible IBs may refer clients to register for and participate in the Trading Competition. IB rewards will be calculated based on the number of successfully referred eligible clients and the applicable client type.

Rewards under this IB Referral Program are separate from any rewards that referred clients may earn from the Trading Competition itself.

2. Program Period

The program period shall follow the dates published on the relevant MH Markets Trading Competition page.

Only clients who complete registration and satisfy the applicable participation requirements during the program period will be counted as eligible referred clients.

3. Client Type Definitions

New Client: A client who registers an MH Markets account for the first time after the start of this program and successfully registers for the Trading Competition.

Existing Client: A client who had already registered an MH Markets account before the start of this program and registers for the Trading Competition during the program period.

Client classification will be determined based on MH Markets system records.

4. Eligible Referred Client Requirements

A referred client must meet all of the following requirements to be counted as an eligible referred client:

- Complete MH Markets account registration and any required identity verification;
- Successfully register for the Trading Competition;
- Complete the required funding requirement for the Trading Competition;
- Complete at least 1 standard lot of eligible trading volume during the competition period;
- Keep each eligible trade open for at least 3 minutes;
- Comply with the Trading Competition rules and any other applicable platform requirements.

Any client who fails to meet any of the above requirements will not be counted toward the IB's eligible referral total.

5. IB Reward Structure

5.1 Each IB's reward will be calculated based on the total number of eligible referred clients during the Trading Competition.

Eligible Referred Clients per Competition	New Client Reward	Existing Client Reward
1st–10th Client	30 USD / Client	20 USD / Client
11th–20th Client	40 USD / Client	25 USD / Client
21st Client and above	50 USD / Client	30 USD / Client

5.2 Each IB may receive up to USD 2,000 in rewards per Trading Competition. Rewards for New Clients and Existing Clients may be combined, but the total reward shall not exceed the maximum reward cap for each competition.

5.3 In addition to meeting the eligible referred client requirements, the total eligible trading volume generated by all eligible referred clients under an IB during a single competition period must reach at least USD 1,000,000 in Notional Value in order for the IB to qualify for referral rewards.

5.4 If the total eligible trading volume does not reach USD 1,000,000 in Notional Value, the IB will not be eligible to receive referral rewards for that competition period, even if the IB has successfully referred clients who otherwise meet the eligibility requirements.

5.5 Only trading volume generated from trades that comply with the Trading Competition rules and this IB Referral Program will be included in the calculation.

All trading volume figures and final eligibility determinations are subject to MH Markets' system records and final review.

6. Reward Calculation Rules

- The applicable reward tier will be determined by the IB's final number of eligible referred clients;
- Rewards will be calculated according to the applicable New Client or Existing Client reward rate after the final number of eligible referred clients has been confirmed;
- A client who has already been counted and rewarded under this program will not be counted again solely because the same client participates in another competition period;
- Each client may only be attributed to one IB;
- If a client is associated with more than one IB, the final referral attribution will be determined based on MH Markets' system records and review.

7. Repeat Participation and Cross-Period Rules

If the same client participates in multiple Trading Competition periods, the client will generally not generate an additional IB referral reward if the client has already been counted and rewarded under this program.

If otherwise specified on the relevant promotion page, the rules published on that page will apply.

8. Abnormal or Prohibited Activities

To ensure fairness, the following activities may result in a client being excluded from the eligible referral count or the cancellation of the IB's reward:

- Fake accounts, duplicate accounts, or participation using multiple identities;
- Self-referrals or referrals created through related or associated accounts;
- Abnormal trading, wash trading, volume manipulation, or trading without a genuine market purpose;
- Attempts to circumvent program rules through technical methods, account associations, or other means;
- Providing false, misleading, or incomplete information;
- Any other activity that MH Markets reasonably determines to constitute abuse of the program.

MH Markets reserves the right to review eligibility based on platform records, account information, trading activity, and other reasonable evidence.

9. Reward Distribution

IB rewards will be calculated and distributed after the program ends and once the relevant client eligibility and trading activity reviews have been completed.

The actual reward distribution date and method will be subject to the final notification issued by MH Markets.

If reward distribution is delayed due to additional review, identity verification, system processing, or other reasonable circumstances, MH Markets will handle the matter accordingly.

10. General Terms

- Participation in this program constitutes the IB's acknowledgement that they have read, understood, and agreed to these Terms and Conditions;
- This program is also subject to the applicable MH Markets Trading Competition rules and other relevant platform policies;
- MH Markets reserves the right to make the final determination regarding eligible clients, client classification, referral attribution, and reward amounts;
- To the extent permitted by applicable laws and regulations, MH Markets reserves the right to modify, suspend, or terminate this program based on actual circumstances;
- In the event of any inconsistency between these Terms and Conditions and any specific terms published on the Trading Competition page, the latest rules published on the relevant promotion page shall prevail.
